

The prices we charge for tests and procedures tend to be lower than other health care centers and hospitals in Cleveland. In this brochure, you'll find a list of our maximum charges for some of the more common imaging/x-ray exams, lab tests, and cardiac tests. Our charges are the same for all patients, but the amount you owe may be less than what's listed based on your insurance coverage.

Please note that your charges may vary from what you see here because they are based on your doctor's specific orders. Charges may also change if additional testing is indicated.

The charges are correct as of 1/1/2019, but are subject to change.
